

BiPRO[®] Alpha 9000

alpha-lactalbumin / whey protein isolate

BiPRO® Alpha 9000

alpha-lactalbumin / whey protein isolate

- ◇ Valuable whey protein fraction that is extremely important for infant nutrition, because it is the primary whey protein in human milk.
- ◇ High protein quality; a complete amino acid profile with high digestibility and absorption
- ◇ Lactose- and fat-free
- ◇ Heat stable in UHT application
- ◇ Highest alpha-lactalbumin purify >90% in total protein
- ◇ Uniquely high in essential amino acids:
 - ◇ **Tryptophan**, the precursor to neurotransmitter serotonin and melatonin, can enhance sleep quality and mood, also to relieve anxiety and depression
 - ◇ **Cysteine**, the precursor to anti-oxidant glutathione, can reduce inflammation and fatigue

High value protein for infant nutrition and cognitive health.
