

ISO Chill[®] 9010

instantized whey protein isolate

ISO Chill® 9010

instantized whey protein isolate

- ◇ Superior dispersibility
- ◇ Protein fortification
- ◇ Solubility
- ◇ Emulsification
- ◇ Neutral flavor
- ◇ Fat-free

The ISO Chill® Value-added Dairy Ingredients line delivers superior functional whey proteins processed by a novel low temperature microfiltration process to contain a full balance of undenatured bioactive whey proteins, for nutritional advantages, along with functional benefits. ISO Chill® 9010 instantized whey protein has superior dispersion properties. It is specifically designed to quickly dissolve in shaken or stirred drinks, being fully soluble over a wide pH range.

Superior Dispersibility for RTM Blends
